TROUBLE SHOOTING

The checklist below may help you troubleshoot in the unlikely event that a problem occurs while using the product:

SYMPTOM	POSSIBLE CAUSE	SUGGESTED ACTION
No response from unit.	No power to unit.	Check that power is turned on. Check cables and connections.
	Fuse blown or internal fault.	Replace mean fuse or contact Beamz support or Beamz authorized service partner. Do not remove base or yoke covers. Do not attempt to replace a fuse or carry out any repairs or service that are not described in this User Manual unless you have both authorization from Beamz support or Beamz authorized service partner.
Unit resets correctly but does not respond (or does not respond correctly) to the controller.	The controller is not connected. Bad DMX-line.	Connect controller. Inspect connections and cables. Correct poor connections. Repair or replace damaged cables.
	DMX-line has no end resistance.	Insert DMX terminator plug in DMX output socket of last unit on DMX-line.
	Incorrect unit addressing. A unit is defective and is disturbing data transmission on the DMX-line.	Check unit address and DMX mode settings. Unplug DMX IN and OUT connectors and connect them directly together to bypass one unit at a time until normal operation is regained. Have defective unit serviced by an authorized technician.
	Pin 2 and 3 are reversed in XLR connection.	Inspect connections and cables. Install a phase-reversing cable between the units or swap pin 2 and 3 in the unit, that behaves erratically.
Error after unit reset.	Effect requires mechanical adjustment.	Check unit's software version and error messages for more information. Contact Beamz support or Beamz authorized service partner.
Light output cuts out intermittently.	Unit too hot.	Allow unit to cool. Reduce ambient temperature. Ensure free airflow around unit. Clean unit if necessary.
	LEDs damaged	Disconnect unit and contact Beamz support or Beamz authorized service partner.
	The power supply settings do not match local AC voltage and frequency.	Disconnect unit. Check settings and correct if necessary.
